CSR 56-20-26. Independent Contractor Register. 26.1 All independent contractors as defined shall register with the West Virginia Office of Miners' Health, Safety and Training within sixty (60) days of the effective date of the rules and receive a contractor identification number before performing services or construction work at quarries in this state. A one-time fee of fifty dollars (\$50.00) will be required to register.

26.2 In the event the quarry-only independent contractor ceases working on quarry mine property, they shall notify the Director in writing within sixty (60) days.

26.3 The quarry-only independent contractor permit is for work performed at quarries only and does not include working on coal mine property.

26.4 To register, all independent contractors shall provide the West Virginia Office of Miners' Health, Safety and Training the following information on forms provided by the West Virginia Office of Miners' Health, Safety and Training:

- a. The independent contractor's trade name, business address, and business telephone;
- b. A general description of the nature of the work to be performed by the independent contractor; and
- c. The independent contractor's address of record for service of citations or other documents involving the independent contractor.

26.5 If any of the above information changes, the independent contractor shall advise the West Virginia Office of Miners' Health, Safety and Training of such change within thirty (30) days.

26.6 Upon receipt of the above information, the West Virginia Office of Miners' Health, Safety and Training shall issue a contractor identification number. Prompt issuance of the contractor identification number shall not be unreasonably withheld.

26.7 Prior to performing work at the quarry, each independent contractor shall provide the production operator the information contained in subsection 26.4, along with his West Virginia Office of Miners' Health, Safety and Training contractor identification number.

26.8 Each production operator shall maintain in writing at the quarry the information required by subsection 26.7 for each independent contractor at the quarry. The production operator shall provide the above information to an authorized representative of the Director upon the beginning of any inspection.

CSR 56-20-27 Service of Documents; Independent Contractors. Service of notices, orders, and other documents upon independent contractors shall be completed upon delivery to the independent contractor at the work site and mailed to the independent contractor's address of record. A copy of all notices, orders, and other required documents shall be posted on a conspicuous bulletin board at the work site.

CSR 56-20-28. Address of Record and Telephone Number; Independent Contractors. The address and telephone number required under this section shall be the independent contractor's official address and telephone number for purposes of Chapter 22A of the West Virginia Code and these rules. Service of documents upon the independent contractors may be proved by a certified mail return receipt showing that the documents were delivered to the address of record, or showing that the independent contractor is no longer at that address and has established no forwarding address because delivery was not accepted at that address, or that no such address exists. Independent contractors may request service by delivery to another appropriate address of record provided by the independent contractor.

CSR 56-20-29. Enforcement of Citations and Orders. 29.1 These rules shall not be construed to limit the basic compliance responsibilities of production operators. Overall compliance responsibility of production operators shall include assuring compliance with the West Virginia Code provisions and rules which apply to the work being performed by independent contractors at the quarry.

29.2 It is the general enforcement policy of the West Virginia Office of Miners' Health, Safety and Training that the independent contractor will be held responsible for violations committed by the independent contractor or its employees where the production operator has complied with Section 26 of these rules.

29.3 Enforcement action against production operators for violations which involve independent contractors may be taken by the West Virginia Miners' Health, Safety and Training where the production operator has contributed to the existence of a violation, or the production operator's miners are exposed to the hazard, or the production operator has control over the existence of the hazard.

29.4 A production operator may be properly cited for a violation of the rules involving an independent contractor where:

- a. The production operator has contributed by either an act or an omission to the occurrence of a violation in the course of an independent contractor's work; or
- b. The production operator has contributed by either an act or omission to the continued existence of a violation committed by an independent contractor; or
- c. The production operator's miners are exposed to the hazard; or
- d. The production operator has control over the condition that needs abatement.

29.5 In addition to the provisions of Section 29.4 of these rules, the production operator may also be required to assure continued compliance with the West Virginia Code and rules applicable to an independent contractor at the quarry until the contractor is fully able to assume compliance responsibility.

29.6 Whenever a mine operator finds a violation or imminent danger in an area where an independent contractor is operating, such inspector shall make a determination whether to issue the appropriate Notice of Violation or order to either the production operator or the independent contractor, or both, based upon the criteria set out in sections 29.2 and 29.3 of these rules.

29.7 In instances where the work performed will last five (5) days or less at quarry operations, an independent contractor's identification number will not be required. No more than five (5) days' work in a calendar year will be allowed without obtaining a contractor identification number issued by the West Virginia Office of Miners' Health, Safety & Training.

29.8 Independent contractors working at quarries shall comply with Title 56, Series 8 of the West Virginia Administrative Rules.
